

Introducing the
Wellbore Integrity Solutions

SHREVEPORT FACILITY

Global Leadership.
Local Expertise.

Highly trained machinists. Stringent testing methods.

Through our quality management systems, we deliver consistent performance while complying with industry regulations.

Committed to Being the Best in the Basin

Being a global leader in wellbore integrity products and services, we are proud to bring our **renowned products**, reputation for **customer-focused** service, and in-house know-how to the Ark-La-Tex Basin. As an independent company with a singular focus on wellbore integrity throughout the life of the well, we are committed to delivering superior solutions to the region with the best people, processes and facilities.

Comprehensive Services

At our Shreveport facility, we bring the best of both worlds together: **global leadership and local expertise**. Our location gives customers fast and reliable access to quality inspection services, rental tool services, whipstocks, a world-class machine shop and more. As a result, there is easy access to leading products, services and manufacturing expertise to support local quick turnaround needs.

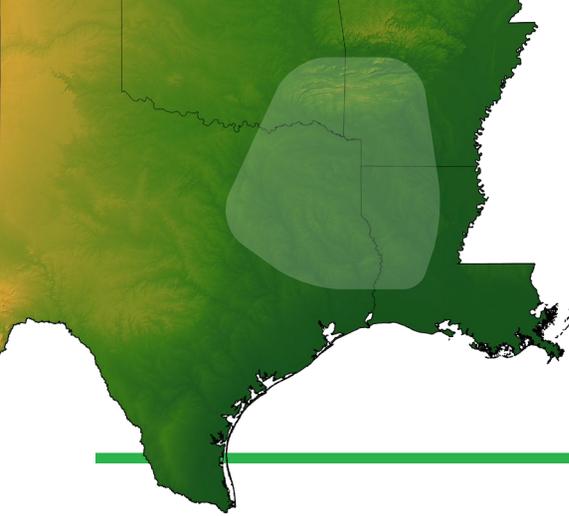

Trusted Brands

We offer our customers some of the most well-known names in wellbore integrity products and services. Our roster includes the **DRILCO** brand, a name that is synonymous with excellence and innovation in tubular products and services since 1960. We also offer the full range of **Thomas Tools** oilfield rental tools, an industry leader since 1961. And, we provide the proven performance of the **TrackMaster™** brand, the industry standard for wellbore departure applications.

Products & Services You Can Count On

We are proud of both our legacy and our **future**. We provide the products, services, and reliability customers need to achieve **success** across the well lifecycle. We are the basin area's premier resource. As your **trusted partner**, we are committed to helping reduce cost and risk by optimizing performance.

Ark-La-Tx Basin Products and Services

Inspection Services

To meet your specific needs, we provide customizable inspection services. Our highly trained DRILCO inspectors use rigorous testing methods to help prevent failure of tubular products and downhole tools and to identify the need for repairs, so downtime is minimized.

- Electromagnetic Inspection (EMI)
- Ultrasonic Inspection (UT)
- Special End Area (SEA)
- Magnetic Particle Inspection (MPI)
- Dye Penetrant Testing (PT)
- Dimensional Measurements
- Thread Gauging
- Production Tubing Scanning Tool

Machine Shop Services

Our highly trained machinists use state of the art equipment to help our customers maintain their tubulars. We wrote the book on the processes that today are recognized as the industry standard. Through our quality management systems, we deliver consistent performance while complying with industry regulations.

- API Connection Machining
- Premium Threaded Machining
- Hardbanding
 - Certified in multiple wire types, both steel and non-mag
- Tubular Management System
 - Tubular Lifecycle Management
- Tubular Accessories
 - Manufacturing of crossovers, lift subs, bit subs, saver subs

Wellbore Departure

All our **TrackMaster Select*** whipstocks are equipped with the unique multi-ramp profile that delivers a rapid cut out, extended length, full gauge window. Specific whipstock configurations are offered for hard formation, multi- casing, low dogleg and multi-lateral junction applications.

- TrackMaster Select Whipstock System
- TrackMaster OpenHole-Cemented (OH-C) Whipstock System
- Thru-Tubing TrackMaster System

Manufactured Products

Our DRILCO manufactured products are built tough and work tough. We offer industry-leading drill collars, Hevi-Wate* transitional drill pipe, rotary substitutes (subs), accessories, and other BHA tools that deliver in the most demanding environments.

- Drill Collars
- Hevi-Wate Drill Pipe

Thomas Tools—Tubular, BOP and Surface Rentals

Through our New Iberia facility, we offer the full range of Thomas Tools oilfield rental tools. Each and every one of our downhole and surface equipment is built according to the strictest quality inspection and maintenance procedures in the industry.

- Comprehensive Tubular Rental
- Tubular Handling Accessories
- Blowout Preventers
- Spacer Spools and DSA's
- Mudscreen Manifolds

The People You Can Trust to Get the Job Done Right

Our team has in-depth local knowledge of the Ark-La-Tx basin and its unique challenges. No matter the job, we have what it takes to get it done reliably and efficiently. And because every challenge is different, we apply our technical knowledge and deep experience to customize an economical and effective solution.

COME SEE THE DIFFERENCE FOR YOURSELF.

We invite you to discover the many advantages offered at our Shreveport facility today.
