

Introducing the
Wellbore Integrity Solutions

VILLAVICENCIO FACILITY

Global Leadership.
Local Expertise.

Highly trained machinists. Stringent testing methods.

Through our quality management systems, we deliver consistent performance while complying with industry regulations.

Committed to Being the Best

Being a global leader in wellbore integrity products and services, we are proud to bring our **renowned products**, reputation for **customer-focused** service, and in-house know-how to the core of the oil and gas activity in Colombia from the Vaillavicencio facility. As an independent company with a singular focus on wellbore integrity throughout the life of the well, we are committed to delivering superior solutions to the region with the best people, processes and facilities to our customers.

Comprehensive Services

At our Villavicencio facility, we bring the best of both worlds together: **global leadership and local expertise**. Our location gives customers fast and reliable access to quality inspection services, rental tool services, whipstocks, a world-class machine shop and more. As a result, you have easy access to leading products, services and manufacturing expertise to support your quick turnaround needs for every run.

Trusted Brands

Wellbore Integrity Solutions offers our customers some of the most well-known and reliable brands in Colombia's wellbore integrity products and services for over 20 years. Our roster includes our **Red Baron** brand offering fishing and remedial tools and services and our **DRILCO** brand, a name that has been synonymous with excellence and innovation in tubular products and services since 1960. We also offer inspection and machine shop services along with providing the proven performance of the **TrackMaster™** brand, a name known as the industry standard for wellbore departure applications.

Products & Services You Can Count On

We are proud of both our legacy and our **future**. By providing the products, services, and reliability customers need to achieve **success** across the well lifecycle. We are the basin area's premier resource. As your **trusted partner**, we are committed to helping you reduce cost and risk by optimizing performance.

Villavicencio, Colombia Llanos Basin Products and Services

Fishing and Remedial Tools and Services

With the most experienced professionals, high-quality fishing tools, and high-performance cutting structures all under our **Red Baron** brand Villavicencio facility delivers to our customers:

- Milling tools
- Fishing tools
- Section milling
- Plug and Abandonment (P&A)

Inspection Services

To meet our customers specific needs, we provide customizable inspection services. Our highly trained **DRILCO** inspectors use rigorous testing methods to help prevent failure of tubular products and downhole tools and to identify the need for repairs, so downtime is minimized.

- Electromagnetic Inspection (EMI)
- Ultrasonic Inspection (UT)
- Special End Area (SEA)
- Magnetic Particle Inspection (MPI)
- Dye Penetrant Testing (PT)
- Dimensional Measurements
- Thread Gauging

Machine Shop Services

Our highly trained machinists use state of the art equipment to help you maintain tubulars. Our **DRILCO** product line wrote the book on the processes that today are recognized as the industry standard. Through our quality management systems, we deliver consistent performance while complying with industry regulations.

- API Connection Machining
- Tubular Accessories
 - Manufacturing of crossovers, lift subs, bit subs, saver subs

Wellbore Departure

All **TrackMaster Select*** whipstocks are equipped with the unique multi-ramp profile that delivers a rapid cut out, extended length, full gauge window. Specific whipstock configurations are offered for hard formation, multi-casing, low dogleg and multi-lateral junction applications.

- TrackMaster Select Whipstock System
- TrackMaster OpenHole-Cemented (OH-C) Whipstock System
- Thru-Tubing TrackMaster System

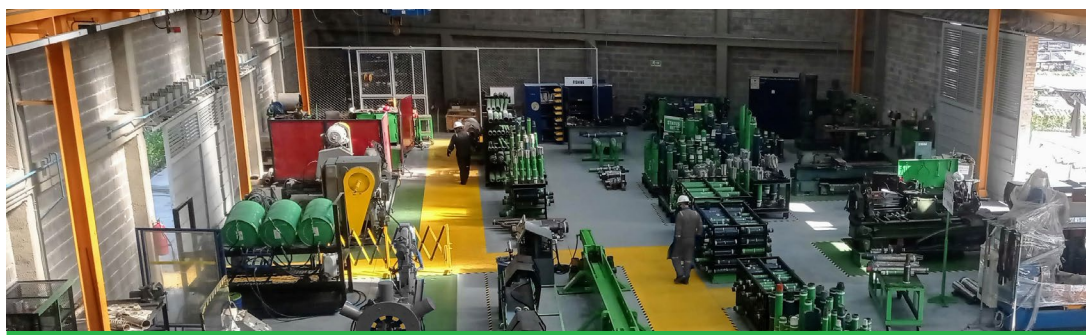

Tubular Rentals Services

Through our Villavicencio facility, we offer the full range of tubular rental tools. Each and every one of our downhole and surface equipment is built according to the strictest quality inspection and maintenance procedures in the industry.

- Comprehensive Tubular Rental
- Tubular Handling Accessories

The People You Can Trust to Get the Job Done Right

Our team has in-depth local knowledge of the Colombia basin and its unique challenges. No matter the job, we have what it takes to get it done reliably and efficiently. And because every challenge is different, we apply our technical knowledge and deep experience to customize an economical and effective solution.

COME SEE THE DIFFERENCE FOR YOURSELF.
