

NEWS RELEASE

Wellbore Integrity Solutions Announces the Opening of Wellbore Integrity Solutions Saudi Arabia Ltd. in Dammam, Saudi Arabia.

HOUSTON – March 9, 2021 – Wellbore Integrity Solutions (WIS) today announced the opening of our office in Dammam, Saudi Arabia.

By transitioning over operations in Saudi Arabia resulting from the acquisition announcement made in January 2020, Wellbore Integrity Solutions is solidifying our presence in the Kingdom. Saudi Arabia plays an important role as a commercial hub for Gulf Corporation Council (GCC) member countries, which attract the attention of businesses around the world.

“Our presence in the Kingdom of Saudi Arabia is built on the legacy of **DRILCO** which started operations in the Kingdom back in 1984 offering tubular sales, rentals, and in-country repair”, stated Dave MacNeill, President and CEO. “Additionally, we are very excited to continue building upon this legacy by welcoming and transitioning 45 experienced employees, most are also legacy employees of Smith Fishing Services, who will staff our operations and work out of our Dhahran facility.”

Wellbore Integrity Solutions has an unsurpassed track record and is leading the market in Whipstock service offerings deploying the TrackMaster Select from standard jobs to challenging applications in hard and abrasive formation, total losses, dual and triple casing exits. We offer comprehensive product offering and state-of-art technology in fishing and remedial services. Our **ProMill Duo***, K-Mill Section milling, Thru-Tubing equipment for cleaning and milling applications, Barracuda Pilot Mill, and Cut & Pull BHA's are among other technologies in fishing, milling, and thru-tubing. Our DRILCO machine services will also soon be available to the market.
