

Centrix™

Powered by DRILCO® AI

CLOUD-BASED DIGITAL PLATFORM

NEW TECHNOLOGY FOR ASSET MANAGEMENT

DRILCO's Centrix™ cloud-based data capturing digital platform offers our advanced inventory management, detailed inspection and machining reporting, and a comprehensive historical tool data ensuring efficient operations and informed decision-making from cradle to grave.

Features Include:

- Real-Time Inventory Visibility
- Advanced Inventory Filtering Capabilities
- Historical Tool Dashboard
- Electronic Billing Authorizations
- Inspection and Machining Forms
- Fact Based Analytic Capabilities

DRILCO
DELIVERING EXCELLENCE AND INNOVATION

Centrix Inventory Dashboard

Provides real-time inventory visibility ensuring:

- Inventory on Hand Reporting
- Rig Ready Assets
- Tool Type Quantities
- Assets by Status Condition
- Assets by DRILCO Location
- Assets by Service Required
- Assets by Tool Type and Sub Tool Types
- Assets by Rig
- Advanced Filtering Capabilities

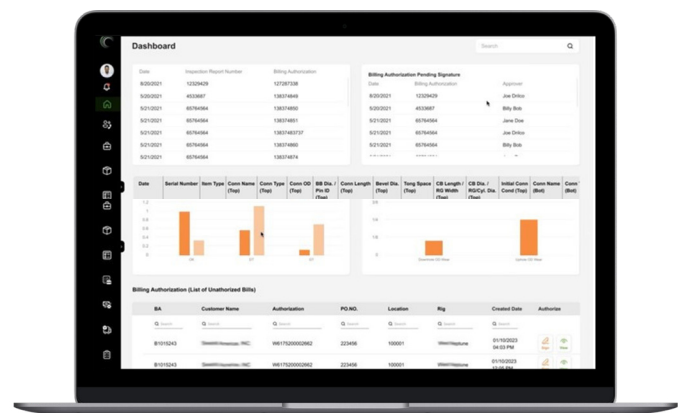

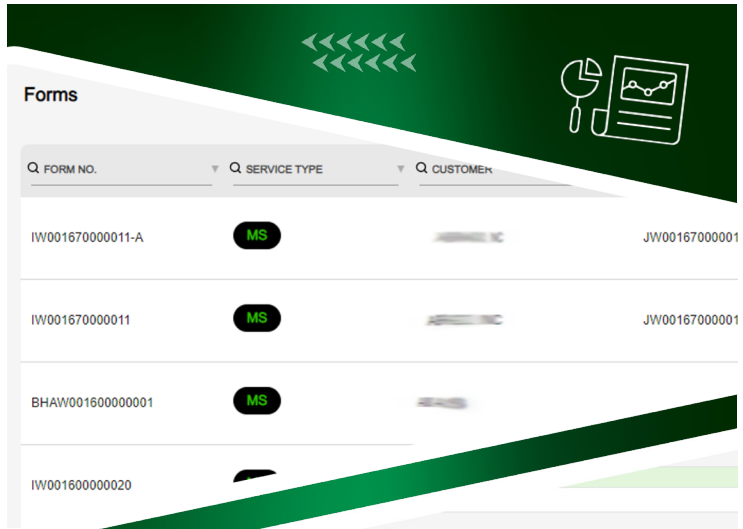

Historical Tool Dashboard

- Historical Tool Data allows users to search for system generated inspection and machining reports
- Generate report by Parent and Child serial number combination.
- Combines all historical inspection data

Asset Analytics such as:

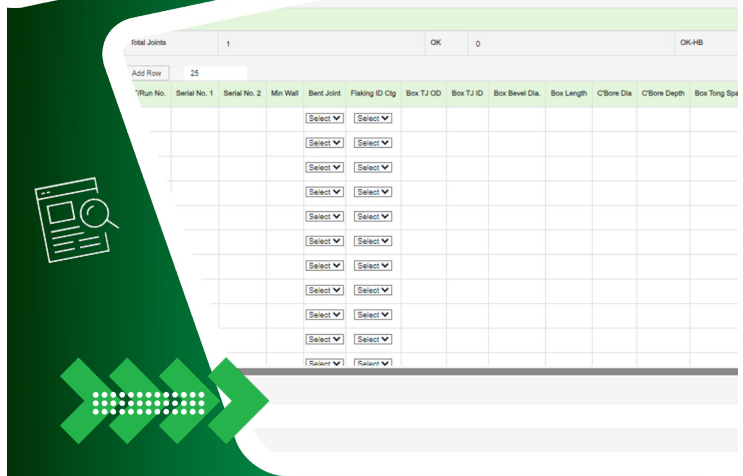

- Total Inspections
- Tong Space Change
- Total Length Change
- Damage History
- OD wear

Forms

- Drill Pipe Inspection Reports
- BHA Inspection Reports
- Historical Tool Data tabs allows users to search for system generated inspection reports by serial number
- Speciality Tool Reports by Parent and Child serial number combination
- Tool History Reports
- Material Receiving Tickets
- Work Order Generation
- Shipping Tickets

Asset Analytics such as:

- Total Inspections, Tong Space Change, Total Length Change, Damage History, and OD wear.
- User can search and sign Billing Authorizations.
- Shows pending Billing Authorization by required approvers.

Billing Authorizations

The billing authorization portal streamlines operational efficiency by seamlessly generating authorizations within each job, leveraging pricing information directly from price books. This integration ensures accuracy and consistency in billing procedures.

- Accurate pricing per customer price books
- Digital Signature Capability
